From Founder's Desk

Hello Student's, Welcome to E-tech academy.

E-tech Academy was founded in 2008 with the sole aim of enabling the vision of bright, young minds who aspire to shape the world of tomorrow with their intellect. Over the decade we keep perfecting these recipe of E-tech for top - notch teaching and we are getting the desired results.

Our highly qualified faculty and novel teaching methods have enabled 8000+ students to get into their field of excellence.

We firmly belief that with the right counselling, dedicated efforts and enough ambition, you can do it too.

Moonis Syed

About E-TECH ACADEMY

E-Tech academy

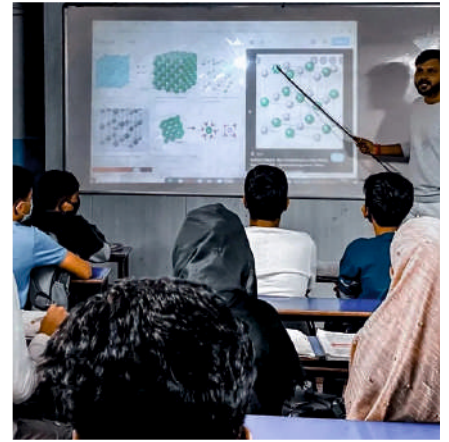

is the brainchild of Professor Moonis Syed.

Founded in 2008 at Kurla West,
we aim to bring to fruition the dream
of thousands of aspiring medical,
engineering and board exam students.

With a Decade years of experience,
E-tech has provided exceptional
coaching to many young minds
a legacy that continues till date.

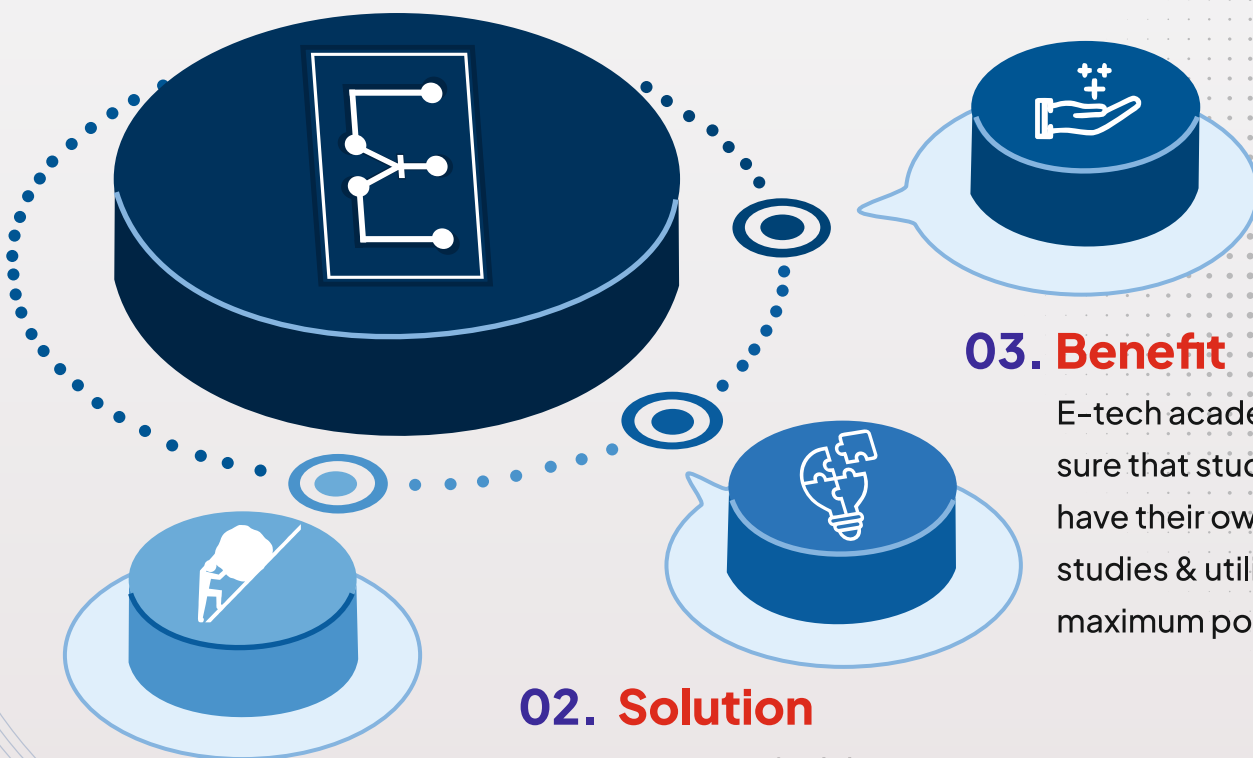

Over a past decade, we at E-tech have
emphasised on helping students to
understand conceptual knowledge -
knowledge that lays the foundation of
better results. Our highly qualified teachers
are adept at understanding the art of playing
to every candidate's potential and bringing
out the best in them.

With the latest advances in E -tech at our
disposal, we go beyond the chalk and board
method of teaching to broaden our students'
horizon. As long as there is dedicated effort
from your end, our exclusive courses are bound
to get results as testified by our past experience.
At E-tech, we equip every student with the with
the right infrastructure, ambience, faculty and
experience that they need to excel.

Why **E-TECH ACADEMY**

E-tech academy is expert in all modes of teaching and highly honoured and trusted name in the field of education. A well-designed methodology for edification along with highly qualified educators, equipped with digital board to make concepts easier to grasp, make a remarkable result-oriented combination. Our educators are well trained in driving students out of their comfort zone. Regular doubt counters, personalised attention and weekly, monthly, and end-of-term tests ensure that our students do well. Remember that the choice you make today will determine the rest of your child's life. So choose well and wisely.

01. Challenge

E-tech academy looks into the challenges which is faced by the students during the studies.

02. Solution

We try to find the solutions for the challenges faced by the students.

03. Benefit

E-tech academy makes sure that students have their own space for studies & utilize their maximum potential.

General Information

Parent-student Counselling

When there seems to be a lack of commitment from children, efforts are made to get the parents and students both involved one-on-one. Every student's attendance and test scores are intimated on a regular basis by phone, SMS, or email.

Attendance

Attendance is mandatory for all lectures and examinations. Absenteeism is strongly discouraged, and only in an emergency will it be okay. Parents are asked to make sure that their kids show up on time and regularly for classes and tests.

Periodical tests & mock tests

Regular tests are an important part of the coaching programme and are scheduled throughout the course. This incorporates Daily Practice Problems (DPP) as an added feature to ensure daily syllabus revision. In each subject, tests are given chapter by chapter, combination chapters, and the entire curriculum. To ensure accuracy and comparative rankings, test papers are computer scored.

Faculty

Each faculty member is professionally certified and experienced, ensuring special attention to each student's individual needs and shortcomings.

Study material & study room for students

The study materials are authentic, thorough, and brief, and are professionally printed books/booklets. These eliminate the need to purchase or consult other books. We also have an exclusive study room designed for those who wish to self study in our premises. Study center facility is chargeable seperately as per the required number of hours on monthly basis.

Discipline

Disruptive behaviour and/or noncompliance with the institution's norms and regulations would exclude students from continuing enrollment, exclusively at the expense and danger of the student's own future. No portion of the payments would be returned in such circumstances.

Student Responsiveness

We work hard to help our students, and we expect them to do the same with sincere efforts.

Tips To Study Smarter

FIND YOUR SPACE

Your study space should inspire you & make you comfortable. Make sure it's distraction free, though!

REVISE & REVIEW

Revising your work is the best way to make it stick. Quiz yourself, use the spaced repetitions method or make flashcards to truly understand and grasp your topics.

PICK YOUR TIME

Find a time that suits you. Some students study better at night, while others ace in the morning. Don't push yourself when you're tired- it won't work!

SET A GOAL

Write your goals whenever you begin. Make sure that they are:

Specific
Measurable
Achievable
Relevant
Timed

TAKE A BREAK

All work and no play makes Jack a dull boy. Make sure you take short breaks in between your study time, walk around or do something you like to ensure your work is more efficient.

MAKE A PLAN

Use a wall calendar or your phone calendar to set up a todo list.

Whenever you have a huge chapter to do, break it down into small chunks. Also, set up an alarm as a reminder to keep you on track.

JUST ASK

Don't hesitate in asking for help. If you're stuck- simply ask your friends or family members. They might help you see your problems in a different light.

STAY HEALTHY

A healthy mind needs a healthy body. Make sure you're eating well and drinking plenty of water while you're studying.

FIND YOUR STYLE

Understand and assess your learning style. Do you understand best by seeing, listening or doing?

BE MOTIVATED

Use your goals and study space to keep you motivated. Stick up quotes or reminders that inspire you- they may help you remember what you're working towards.

What Makes us Better in Education!!

Right Guidance in any mode of teaching is the **Stepping Stone for Success.**

E-Tech contribution to education is evident through its highly successful alumni. Today as a result - oriented teaching methodologies, evaluation systems and a track record of academic achievement we have become one of the best and leading institutions in the field of education with fantastic results. These are the factors that make us better and a reliable brand when it comes to providing education par excellence.

One shot revision plan.

Well – Researched Study Material

Adding Pages Of Glory to your **Success** Story.

Our study material is designed in such a way that makes the understanding of subjects easier and relatable for students. Well-researched, centralized and tailored course materials for all subjects are provided to students. All possible question & answer that are relevant to the examination pattern are also covered to support structure success. A team of experts compile content so that no other book is required for reference. The content is designed in a very simple and lucid way. Yet it goes through many level of filtration so that it meets the standard of quality, conciseness and cognitive understanding of the students.

Practice

Practice is what transforms hard work into excellence.

E-Tech offers adaptive testing modules for personalized learning. Test are conducting at every level, be it chapter wise, half portion or full portion. Continuous testing helps the child to prepare and be confident about appearing for the final exams. Students demonstrate their understanding of the subject matter which is critical to the learning process, it is essential to evaluate whether the education goals and standards of the lessons are being met.

Question papers are set in accordance with the board examination paper pattern and mark distribution. Students are mailed / handover the results in simulated time, making scheme to help them understanding their improvements areas instantaneously.
